A professional learning programme for teachers wishing to develop knowledge and skills in languages curriculum.

This professional learning program, held over 7 days in total throughout the year, is designed to provide teachers with a collaborative and supportive environment through which they can engage with contemporary approaches, and future challenges associated with the enhancement of student outcomes in the language classroom.

The program provides a rich blend of theory and practice that is designed to have immediate practical applications within a classroom context. The structure of the program supports teachers practising new approaches and provides structured opportunities for feedback to help language teachers reflect on, question and improve their practice.

This program will be particularly advantageous for those teachers who have had limited opportunities for professional learning within the area of languages curriculum.

The program is underpinned and informed by the Professional standards for accomplished teaching of languages and cultures (AFMLTA, 2005), the National Professional Standards for Teachers (aitsl, 2011), and the Australian Charter for Professional Learning of Teachers and School Leaders (aitsl, 2012).
